

Stamped concrete Colours

The art of
harmony

^{EN} Stamped Concrete is made up of a base colour (Colour Hardener) and a colour for the superficial shade (Release agent). Infinite combinations can therefore be obtained.

The colours listed in this page are only indicative; Ideal Work authorised applicator will create an ad hoc sample for you to see and touch the colour and finish you would like to choose.

^{IT} Il pavimento stampato è composto da un colore di base (Colour Hardener) e un colore per la sfumatura superficiale (Distaccante), si possono così ottenere infinite combinazioni.

I colori riportati in questa pagina sono solo indicativi, sarà poi l'applicatore autorizzato Ideal Work che realizzerà un campione ad hoc per poter vedere dal vivo colore e finitura.
