STAMPI PAVIMENTO

Floor texture mats / Matrices pour béton

Idealwork mette a tua disposizione un'ampia scelta di stampi, greche, rosoni e motivi decorativi per ricreare la bellezza naturale della pietra, della roccia, della ceramica, dei mattoni e addirittura del legno, dando libero spazio alla tua creatività. I modelli di stampi e texture sono stati selezionati per rispondere alle esigenze e ai gusti del mercato italiano ed europeo.

Idealwork puts at your disposal a wide range of stamps, textures, borders and medallions to recreate the natural beauty of stone, rock, ceramic, brick and even wood giving free rein to your creativity. The type of stamps and textures have been selected to meet the needs and tastes of the European market.

Idealwork met à votre disposition une large gamme d'empreintes, de frises, rosaces et motifs décoratifs pour recréer la beauté naturelle de la pierre, de la roche, de la céramique, de la brique et même du bois, donnant libre court à votre créativité. Les modèles d'empreintes et textures ont été sélectionnés pour répondre aux exigences et aux goûts du marché européen.

STAMPI PALADIANO BY BOB HARRIS

PALADIANO

Paladiano texture mats by Bob Harris / Paladiano par Bob Harris

Bob Harris, in stretta collaborazione con Idealwork, ha sviluppato una linea innovativa di stampi per pavimentazioni ispirata alle pietre naturali e ai luoghi di maggior tradizione storica al mondo. Proprio grazie a questa collaborazione, per la prima volta sono state realizzate sei nuove texture adatte al mercato europeo e italiano. La ricerca di pietre naturali provenienti da tutto il mondo e lo studio di come sono state posate ha permesso di progettare un prodotto il più possibile fedele alle caratteristiche architettoniche dei vari luoghi, autentico, di alta qualità e allo stesso tempo che soddisfi le esigenze creative e operative degli artisti e applicatori che andranno a utilizzarlo.

Bob Harris in collaboration with Idealwork have developed an innovative range of stamping tools inspired by the old World natural paving as seen in many European countries. Paladiano stamping tools were designed with several new key features that would advance the technology used to imprint concrete. Six new designs cast with natural stones sourced from historical regions around the World to produce authentic textures and formations. With up to 8 unique stamps per set and all the detailing tools needed to produce a masterpiece in concrete. Inspired by history, built by artisans and used by the stamped concrete professionals.

Bob Harris, en étroite collaboration avec Idealwork, a développé une ligne innovante d'empreintes pour le béton inspirée des pierres naturelles et des plus beaux sites historiques du monde. C'est grâce à cette collaboration qu'ont été réalisées, pour la première fois, six nouvelles empreintes pour le marché européen et italien. La recherche de pierres naturelles se fait dans le monde entier et l'étude de la façon dont elles ont été mises en place a permis de créer un produit qui reproduise pratiquement à l'identique les caractéristiques architecturales des divers lieux. Un produit authentique, de qualité qui puisse en même temps satisfaire les exigences de création et de pose des artistes et des poseurs qui l'utiliseront.

STENCIL CARTA

Paper Stencil / Pochoirs pour béton

Gli Stencil carta Idealwork sono realizzati con fibre di carta plastificata resistenti all'acqua e vengono normalmente utilizzati in combinazione con Idealwork Colour Hardener, Ideal Binder e Ideal Sealer, per creare forme di mattoni, pietre irregolari o ciottoli su pavimentazioni in calcestruzzo nuove o preesistenti.

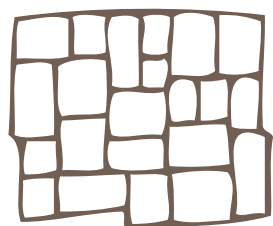

Idealwork Stencils are made of water-resistant fiberboard with a plastic coating. These stencils are used in conjunction with Idealwork Colour Hardener, Ideal Binder and Ideal Sealer to create brick, stone, slate and tile patterns on cast-in-place concrete.

Les Pochoirs Idealwork sont réalisés en carton plastifié résistant à l'eau. Ils sont utilisés avec le colorant durcisseur Idealwork Colour Hardener, le polymère liquide Ideal Binder et l'enduit Ideal Sealer, pour reproduire les briques, les pierres irrégulières ou les petits cailloux sur des revêtements en béton neufs ou préexistants.

STAMPI MURO

Wall texture mats / Matrices murale

Gli Stampi Muro Idealwork sono utilizzati in combinazione con Ideal Wall o Ideal Tix per ricreare su pareti e colonne, forme di mattoni, pietre e rocce in modo rapido ed estremamente realistico. Oltre agli stampi sono disponibili rulli, texture e fustelle in acciaio: attrezzature indispensabili per realizzare forme geometriche e texture di base.

Idealwork wall texture mats are used in conjunction with Ideal Wall and Ideal Tix to recreate bricks, stones and rocks quickly and realistically on walls and columns. In addition to the wall stamps, rollers and steel frame templates are available to obtain other basic geometric shapes and base textures.

Les empreintes Idealwork sont utilisées avec Ideal Wall ou Ideal Tix pour reproduire, sur des murs et des colonnes, la brique, la pierre et la roche de façon rapide et extrêmement réaliste. Les empreintes existent également en rouleau et en poinçons décoratifs en inox : équipement nécessaire pour obtenir des formes géométriques et de base.
